

Doormark, Inc.

The True Mark of Excellence

*Manufacturer of Quality
3D Laminated Components*

About Us

Founded in 1994, Doormark, Inc. is among the largest manufacturers of 3D laminated components on the East Coast of the United States. Our corporate offices and 60,000 square foot manufacturing facility are located at 430 Goolsby Boulevard in Deerfield Beach, Florida.

Industry renown for our diverse product offerings, Doormark features more than 72 colors with a variety of mattes, silks, wood grains and glosses, most of which are available with melamine matching backs. Doormark offers these colors in over 40 unique door designs and accessories including crown molding, valances, wine racks and an option for thermofoil on phenolic, ensuring an exact laminate match. The flexibility of exact matching accessories ensures that the fabrication of custom closets, kitchen cabinetry and cabinet resurfacing will be precisely color matched.

Our manufacturing facility is bar code driven for order accuracy and features 10 Heian CNC routing stations 3 Wemhoner Membrane presses and 2 automated trim lines assuring both quality control and the fulfillment of orders by their specific due date. As always, we greatly appreciate the loyalty and continued support of our valued customers. We invite you to experience the difference of Doormark, the true mark of excellence.

Appliance Panel / Panel Over Panel

- Contact Customer Service for additional Panel Over Panel options.

Type "A" Appliance Panels

- 11" (280mm) minimum width
- 11" (280mm) minimum height
- Type "A" appliance panels have a uniform 1 1/4" cover perimeter, 1/4" thick at the edge
- Square, arch, or cathedral raised panels are available

Type "B" Appliance Panels

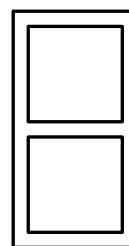

- 12" (305mm) minimum width
- 11" (280mm) minimum height
- Type "B" appliance panels have a uniform 1 1/4" cove perimeter on 3 sides and a 2 1/4" cove on one side. This will allow additional space under continuous handles on some appliances. All four outer edges finish 1/4" thick
- Square, arch, or cathedral raised panels are available. Arch or cathedral type "B" appliance panels require selection of 2 1/4" cove on the right (B1) or left (B2).

Type "C" Appliance Panels

- 11" (280mm) minimum width
- 5 1/2" (140mm) minimum height
- Type "C" appliance panels (slab type) have a 1 1/4" cove perimeter on all 4 sides. All four outer edges finish 1/4" thick.
- Square, arch, or cathedral raised panels are not available
- Woodgrains on type "C" appliance panels are pressed with grain running horizontally

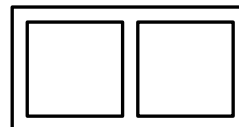

Type "P" Panel Over Panel

- 9" (229mm) minimum width
- 16" (419mm) minimum height
- Square, arch, or cathedral raised panels are available only on the upper panel when applicable
- Available up to 4 panels

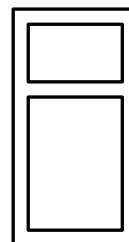

Type "H" Horizontal Panel

- 16" (419mm) minimum width
- 9" (229mm) minimum height
- Available in square raised panel only
- Available up to 4 panels

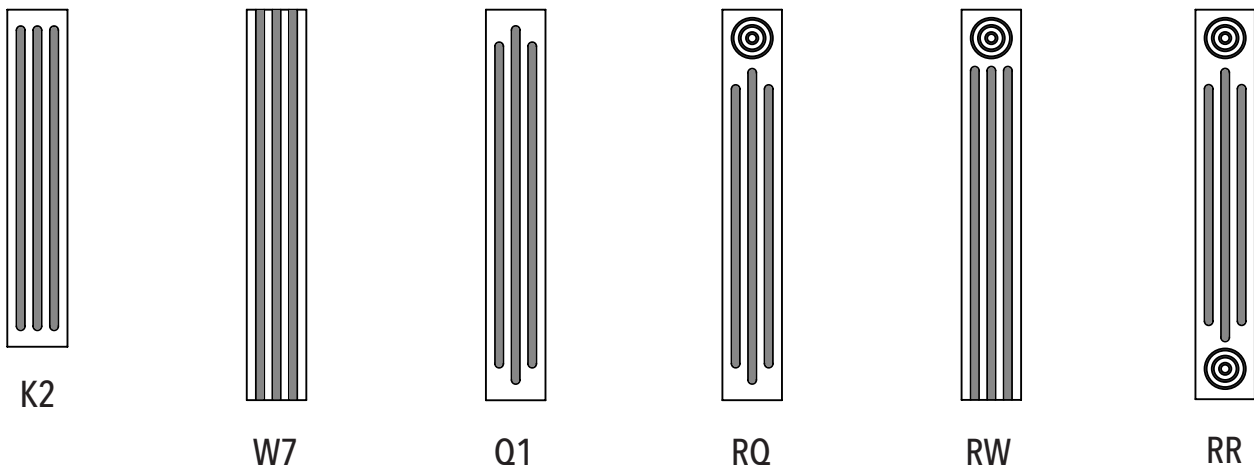

Type "Z" 1/3 Panel Over 2/3 Panel

- 9" (229mm) minimum width
- 16" (419mm) minimum height
- Square, arch, or cathedral raised panels are available only on the upper panel when applicable

Fluted Filler / Rosettes

Fillers are available in the following styles:

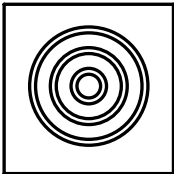

| Type | Description |
|------|---|
| K2 | Flutes start at 1" from the top and 1" from the bottom |
| S3 | Flutes start at 2" from the top and 2" from the bottom |
| T4 | Flutes start at 3" from the top and 3 " from the bottom |
| U5 | Flutes start at 2" from the top and 4" from the bottom |
| V6 | Flutes start at 3" from the top and 5" from the bottom |
| X8 | Flutes start at 1" from the top and all the way through |
| Y9 | Flutes start at 2" from the top and all the way through |
| Z0 | Flutes start at 3" from the top and all the way through |
| Q1 | Tiered |

Flutes with rosettes are available in the following styles:

| Type | Description |
|------|--|
| RX | Double Rosette - Straight Flutes |
| RR | Double Rosette - Tiered Flutes |
| RW | Single Rosette - Flutes go to Bottom |
| RQ | Single Rosette - Tiered Flutes |
| RK | Single Rosette - Flutes 1" from Bottom |
| RY | Single Rosette - Flutes 2" from Bottom |
| RT | Single Rosette - Flutes 3" from Bottom |

Glaze: **Umber Brown**

Door Design: **WELLINGTON**
Color: **Cognac**
Glaze: **Black**

High Pressure Laminate / Phenolic Backed 3D Laminate / 3D Laminate

High pressure laminate (HPL) is available for most woodgrain colors stocked by Doormark.

For an exact match, Doormark offers 3D laminate applied to a phenolic backer.

This product can be used in the same way as traditional HPL and is an exact match as it is manufactured using the same laminate used on the doors and drawers.

3D Laminate (thermofoil) can also be used when refacing. It is sold by the lineal foot.

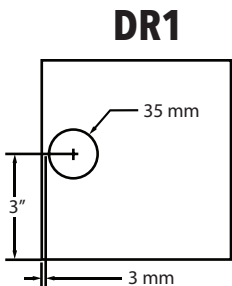

Doormark Hinge Boring Program

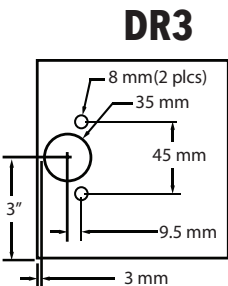

Doormark offers you the option of having hinge holes bored in your cabinet/closet doors. This feature will allow you to take your doors directly to the job site.

There are two hinge boring patterns to chose from. *(see order form)*

Pattern 1 is a single 35mm hole drilled at a depth of 1/2" (12.7mm)

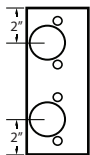

Pattern 2 has one 35mm hole and two 8mm holes for dowels drilled at a depth of 1/2" (12.7mm)

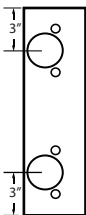

Standard hinge placement.

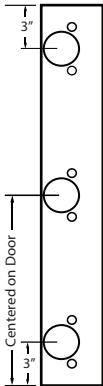

8" up to 13"

13" up to 36"

36" up to 60"

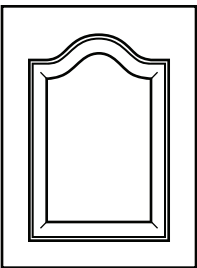

60" up to 96"

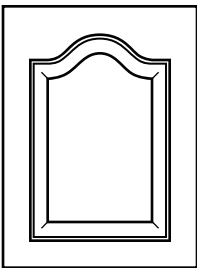

When ordering cathedral or arch style doors, any doors with finger pulls or a Biscayne style door, you will be required to select between a right edge hinge placement or a left edge hinge placement.

(see order form)

Left Bore

Right Bore

Care & Cleaning Instructions for Thermofoil Components

Cleaning

Always use a clean microfiber cloth or non-abrasive sponge.

- **Wipe with a damp cloth or sponge with mild dish soap and water.**

For tougher spots, wipe with a damp cloth or sponge using a mild degreaser such as Simple Green® (with a 50/50 mix of water), standard Fantastik® or standard Formula 409®.

Cleaners to Avoid

- Any abrasive cleaner
- Solvent based cleaners and harsh chemicals
- Any cleaner in combination with a brush
- Cleaners containing ammonia
- Baking soda

If any chemical is spilled on a thermofoil surface, wipe it up immediately. Then wash the surface with soapy water and rinse several times.

Care

Special care must be taken when using toasters, grills, coffee makers and any counter top appliance that generates heat or steam to ensure that doors are not subjected to excessive temperatures.

Special care must also be taken when using the self cleaning option on a standard oven. It is recommended that a heat shield be installed to deflect and shield excessive radiant and convective heat.

Ordering Instructions

| | |
|---------------------------------|--|
| Company ID Code: | Every order must have your three letter Company code. Example: A B C |
| Customer Number: | Every order must have your four digit Customer Number. Example: 1 2 3 4 |
| P.O. Number or Job Name: | Please fill in your purchase order number or job name. |
| Door Design: | Every order must have the three letter door design code. Example: W E S |
| Color: | Every order must have the two, three or four letter color code. Example: F W M |
| Door Style: | Every order must have the three letter door style code. Example: S R P If you require finger pulls either "Top" or "Bottom" must be checked. Note: There are two Door Style modules allowing for up to 12 different door sizes each. Each module is separate from the other allowing for different upper and lower door styles. |
| Drawer Style: | There are two modules for the drawer styles to allow for two different styles. Slab, RR or Biscayne must be checked to determine drawer style. If choosing Biscayne, you will receive three flutes only. "W" or "K" must be chosen for a Biscayne sink front. Contact Customer Service for details. Either Horizontal (HGrain) or Vertical (VGrain) must be checked if your color is a woodgrain. If finger pulls are required, check the box. |
| Mullion Doors: | Choose Door Style. Enter quantity, width, height and number of lites required. |
| Slab Fillers: | Mark either "All Profiled" or choose which side you would like the square edge(s) to be. |
| Laminate / Foil: | Circle either "Laminate" or "Foil" and put quantity needed in box. |
| Molding: | Mark number of pieces needed and type of crown desired. |
